

Riyaan Sheth

Second Year B.Tech

PERSONAL PROFILE

I am a Computer Science undergraduate with a strong interest in building practical, AI-driven and full-stack applications. I enjoy working across the stack and focusing on solving real-world problems through hands-on projects, continuous learning, and experimentation.

DURATION

2024 - 2028

Maharashtra State Board

Higher Secondary Certificate (HSC)

2022 - 2024

Gopi Birla Memorial School

Central Board of Secondary Education

2008 - 2022

PROJECTS

Onboard Intelligence system

A tool aimed at helping new open-source contributors understand and onboard into complex GitHub repos by analyzing structure and recommending safe starting points. It combines backend and frontend components to generate onboarding guides and visual architecture maps.

AI Job agent/ internship finding and applying system

This is an AI-powered job application assistant that parses resumes and searches jobs using structured data and search APIs. It includes automated application features, RAG-based job matching, and a Playwright automation pipeline.

Grade Book

A gradebook web application built with Flask that manages student grade data and persists it using SQLite. It includes basic CRUD functionality and database initialization scripts.
